

Stephen Sammut
Professor of Psychology
Franciscan University of Steubenville
1235 University Blvd.
Steubenville, OH 43952
(740) 283-6963
ssammut@franciscan.edu
lab website: <https://sammutlab.com/>

Education

University of Malta, *1995-1999*
Msida, Malta
Ph.D. in Behavioral Neuroscience

Pharmacy College, Monash University *1990-1993*
Parkville, VIC, Australia
B.Pharm.

Academic Positions

A. Teaching positions

Professor of Psychology *March 2018 - present*
Associate Professor of Psychology *April 2014 – March 2018*
Assistant Professor of Psychology *August 2010 – April 2014*
Conferral of Tenure *2015*
Franciscan University of Steubenville, OH

Responsible for teaching:

- Research Statistics (using statistical program R)
- Experimental Psychology (including lab)
- Biological Psychology

Prior Courses taught:

- Motivation & Emotion, Multivariate Statistics, Qualitative Nursing Research (**graduate level**), Quantitative Nursing Research (**graduate level**), Counseling Research & Evaluation (**graduate level**), Psychopharmacology (**graduate level**)

Contributions to teaching & research at Franciscan University of Steubenville:

- i) **Designing and Establishing biological resource facility, with behavioral and surgical laboratory**
- ii) **Acquisition of laboratory equipment and other donations to support research**
- iii) Management of the laboratory & animal facility
- iv) Mentoring and guiding undergraduate students in research projects and internships
- v) Assisting students in publishing & presenting research

Adjunct Assistant Professor,
Department of Neuroscience,
Carthage College, Kenosha, WI

2009-2010

Responsibilities: Teaching of 4 credits per class

- Neuroscience II: Electrical & Chemical properties (09/2009-12/2009)
- Introduction to Psychology (02/2010 – 05/2010)
- (invited to teach both classes in both Fall 2010 & Spring 2011 semesters - offer turned down to accept position at FUS)

B. Research positions

Principal Investigator and Behavioral Neuroscience Lab Manager
Franciscan University of Steubenville, OH

March, 2015 - current

Responsibilities include but are not limited to:

- Establishing laboratory** for behavioral neuroscience research, electrophysiology, electrochemistry, biochemistry
- Designing, coordinating and executing experiments (behavioral, biochemical, surgical etc).
- Evaluating and analysing of acquired data and its relevance to the direction of the project.
- Publishing of findings
- Reviewing of scientific paper
- Guiding, training and mentoring students in research techniques, statistical analysis and interpretation.
- Acquiring funding** for research and research assistant position (position is fully funded – salary and benefits through acquired funding)
- Financial management** of incoming & outgoing funds

Biological Resource Facility Manager

March, 2015 - current

Responsibilities include but are not limited to:

- Coordination of operations and resources of facilities to support multi-disciplinary animal research
- Coordination of the development, modification, and implementation of programs for the use and care of animals with the IACUC; insures animal care programs comply with guidelines, federal regulations and accreditation requirements
- Development of budgets and monitoring of expenditures and acquisition of funds,
- Hiring, training, and evaluation of performance of Student Workers.

Research Associate & Lab Manager
Department of Neuroscience (Lab PI: Dr. AR. West)
Rosalind Franklin University of Medicine and Science
North Chicago, IL 60064

June 2004 – August 2010

Responsibilities:

- in vivo* experiments – Nitric oxide electrochemistry; electrophysiology (local field potentials, single unit) or combined; reverse microdialysis (combined with electrophysiology/electrochemistry)
- Evaluation and analysis of acquired data and its relevance to the direction of the project.
- Publishing of findings

- iv) Reviewing of scientific paper
- v) Guiding, training and mentoring students, post-docs and other trainees in research methods, including the electrophysiological, electrochemical, histology, statistical analysis and interpretation.
- vi) Daily running of the laboratory in the capacity of lab manager including the overseeing of the budget and laboratory spending.

Postdoctoral Fellow
Albany Medical College,
Center for Neuropharmacology and Neuroscience (MC136),
47 New Scotland Ave, Albany NY 12208

01/2002-05/2004

Research Scientist
Senior Research Scientist (as of 01/1996)
University of Malta, Msida, Malta, Europe

09/1995-12/2001

Contributions to neuroscience research at the University of Malta:

- i) Establishing of a voltammetry & confocal microscopy laboratory.**
- ii) Establishing of two Behavioral laboratories (locomotor activity and drinkometers).**

Duties & Accomplishments:

- i) Full management of the laboratories including ordering, laboratory and equipment maintenance and other associated paper work and equipment set-up.
- ii) Management of animal facility
- iii) Laboratory modification (including woodwork, plumbing and some basic electrical modifications)
- iv) Mentoring and guiding undergraduate students.

Research Interests

My general area of interest lies in human psychopathology. As a behavioral neuroscientist, I see a two-pronged approach to this investigation, within my area of expertise. One is through the use **animal models of disease**, which remain crucial as a tool in science, helping us understand the mechanisms behind various human diseases by attempting to imitate to the best of our ability the pathologies of interest. In psychology (and related sciences), such models of disease are utilized to investigate the physiological mechanisms involved in psychiatric disorders. The second is through various investigations of **human behavior**, including through the use of survey research. It is my goal to utilize both methodologies to gain a better understanding of human psychopathology and the potential neurobiological mechanisms underlying such behavior.

Technique Experience

Voltammetry/Amperometry: Fast Cyclic voltammetry (Millar Voltammeter, EI400, Invilog); simultaneous extracellular and voltammetric at the same carbon fiber electrode or using adjacent electrodes. Amperometry (Apollo 4000, (WPI))

Electrophysiology:	Field potential, Multi-unit and single unit recordings using glass, carbon or tungsten microelectrodes – alone or in combination with voltammetry
Behavioral experiments:	Locomotor activity monitors, Drinkometers. Forced Swim Test
Behavioral models:	<p>Drug-induced Abortion (First-trimester human equivalent) – Mifepristone & Misoprostol</p> <p>Parkinson’s disease – 6-OHDA, partial & full lesion</p> <p>Schizophrenia – Neonatal model of neuronal Nitric Oxide Synthase inhibition</p> <p>Depression – utilizing Interferon-alpha or mild stress and monitoring sucrose consumption</p> <p>Drug Abuse – using behavioral sensitization – escalating behavioral responses to repeated exposure to psychostimulant drugs/drugs of abuse associated</p>
Other techniques include:	Confocal Laser Scanning Microscopy; Spectrophotometry, Histology

Grants & Awards

A. Grants

Date	Granting organization	Amount
2022 (Multiple)	Private Donor grant (Multiple)	\$66,688.93
March, 2020	Watson Bowes Research Institute grant	\$48,527
2021 (Multiple)	Private Donor grant (Multiple)	\$52,091.65
September, 2021	WBRI (Ectopic Pregnancy Project)	\$67,893.86
September, 2021	Steno Institute grant for purchase of Compresstome®	\$5,893
June, 2021	Steno Institute grant	\$10,000
March, 2021	Steno Institute grant	\$5,120
2020 (Multiple)	Private Donor grant (Multiple)	\$18,883.30
March, 2020	Watson Bowes Research Institute grant	\$24,091.79
2019 (Multiple)	Private Donor grant	\$75,383.61
May, 2019	Watson Bowes Research Institute grant	\$64,017
2018 (Multiple)	Private Donor grant (Multiple)	\$3,675
December, 2017	Private Donor grant	\$200
October 11 th , 2017	Watson Bowes Research Institute grant	\$52,275
February, 2017	Private donor grant for purchase of Spectrophotometer	\$5,000
December, 2016	Private Donor grant	\$1,250
February, 2016	AAPLOG – Grants and donations acquired to assist students in attending conference	(\$1000 – Student life); (\$1000 – Academic Affairs); \$3,386.60 – Private donations
October 15 th , 2015	Watson Bowes Research Institute grant (Abortion Study)	\$16,640
February, 2015	AAPLOG – Grant to assist students in attending conference	(\$5,452)
February, 2014	AAPLOG – Grant to assist students in attending conference	(\$1,700)
June, 2013	Donation acquired from TSE Systems, Inc. in Chesterfield, MO	\$50,263 Lab behavioral equipment – 4 cage extension
June, 2012	Private donor grant (Abortion Study)	\$20,000
October, 2011	Donation acquired from TSE Systems, Inc. in Chesterfield, MO	\$62,000 lab behavioral equipment (4 cage system)

Funding Acquired	
Total Cash Grants/Donations	\$537,630.14
Total Cost of Equipment Donated	\$112,263.00
Total Grants acquired for Student Conference Travel	\$12,538.60
Total	\$662,431.74

B. Other Awards

Date	Award
October, 2021	Best Presentation Award by LifeTech pertaining to Abortion Study findings
February 17 th 2017	Excellence in Scholarship Award 2015-16
September 29 th 2011	FEC Grant to attend Society for Neuroscience Conference, Washington DC.

Ad Hoc Review of Scientific Manuscripts

Anatomical Record; BMC Psychiatry; BMJ Open; Brain, Behavioral Pharmacology, Behavior and Immunity; Brain Research, CNS Neuroscience & Therapeutics; European Journal of Dental Education; European Journal of Neuroscience; F1000Research; International Journal of Physical Medicine & Rehabilitation; Journal of Alzheimers Disease & Parkinsonism; Journal of American College Health; Journal of Drug Issues; Journal of Psychology & Psychotherapy; Journal of Pharmacological Sciences; Journal of Neuroscience Research; Journal of Neurochemistry; Journal of Psychology & Psychotherapy; Mitochondrion; Molecular and Cellular Biochemistry; Neuropharmacology; Neuropsychiatric Disease and Treatment; Neuropsychopharmacology; Neuroscience Letters; Psychological Reports; Psychoneuroendocrinology; Psychiatry Research; Religions; Studies in Higher Education; Sultan Qaboos University Medical Journal, Synapse, The Journal of Addiction, Recovery & Aftercare; The Spanish Journal of Psychology.

Other:

Associate Editor of *Frontiers in Psychology – Health Psychology* (3/2021 – current)

Guest Associate Editor for *Frontiers in Behavioral Neuroscience - Behavioral Endocrinology* (9/2019 – current)

Editorial Board Member of *Heliyon* published by Elsevier (4/2016 - 7/2019).

Professional Society Memberships

Associate Scholar of the Charlotte Lozier Institute

Advisory Council Member of the Truth for Health Foundation

Research associate of the Veritas Center for Ethics in Public Life

Associate Member of the American Association of Pro-Life Obstetricians and Gynecologists (AAPLOG)

World Expert Consortium for Abortion Research and Education (WECARE)

Society of Catholic Scientists

Invited Lectures

1. *Drug-Induced Pregnancy Termination at First-Trimester Human Equivalent in an Animal Model*. Kansas for Life Webinar. November 9th, 2021. (Recording not yet available)
2. *Progesterone-mediated reversal of mifepristone-induced abortion in a rat model*. The LIFETECH 2021 Virtual Conference. Saturday, October 30th, 2021. <https://www.youtube.com/watch?v=jZmPB1gStrA>. Held online due to COVID-19.
3. *Utilizing Animal Models in the Investigation of Pregnancy-related Scenarios*. The LIFETECH 2020 Virtual Conference. Saturday, October 24th, 2020. <https://www.youtube.com/watch?v=8leCe6XTYtk>. Held online due to COVID-19.
4. *Developing a Surgical Technique for Embryo/Fetal Transfer in Ectopic Pregnancy in an Animal Model: A Preliminary Investigation*. Joint Conference with the American College of Pediatricians and AAPLOG. March 27-29, 2020; Presented Online due to COVID-19.
5. *Drug-Induced Pregnancy Termination at First-Trimester Human Equivalent in an Animal Model*. Respect Life Conference. Co-presented with Christina Camilleri. October 5th, 2019; St. Vincent de Paul Catholic Church, Charlotte, NC.
6. *Behavioral and physiological consequences of mid-term drug-induced pregnancy termination in an animal model*. Joint Conference with the American College of Pediatricians and AAPLOG. Co-presented with Christina Camilleri; April 5-7, 2019; Marian University, Indianapolis, IN.
7. *Chemically-induced Pregnancy Termination: An Animal Model*. Joint Conference with the American College of Pediatricians and AAPLOG. Co-presented with Christina Camilleri; September 29, 30, & October 1, 2017; The Center for Bioethics and Human Dignity, Trinity International University Campus, Deerfield, IL.
8. *Neuroscience and Faith*. Science and Faith Conference, Fall 2015 (9/11/15 – 9/12/15). Talk: <http://www.faithandreason.com/2015/11/dr-stephen-sammut-neuroscience-and-faith/>.

9. *Rat Models of Depression and application for Experimental Models of Post-Abortion Syndrome*. AAPLOG (American Association of Pro-Life Obstetricians & Gynecologists Annual Research & Strategy Conference; February 21, 2014; Washington DC.
10. *Human Behavior: a Neurobiological Perspective*. Distinguished Speakers Series – Response to Mark Regnerus - “What Contemporary Sexual Behavior Patterns Reveal About the Mating Market and Catholic Thought.” November 7, 2013. Franciscan University of Steubenville.
11. *The traumatized synapse: How Neurons react to what the body feels*. 38th Annual Fall Institute; October 8 2004; Albany, NY.
12. *Neurophysiology of Psychiatric disorders*. Sidney Albert Training and Research Institute (SATRI); April 23 2004; Albany, NY.
13. *The role of interferon-alpha in the mesolimbic DA system*. July 2001; Center for Neuropharmacology & Neuroscience, Albany Medical College, Albany, NY, USA
14. *The role of interferon-alpha in the mesolimbic DA system*. July 2001; Dept of Neuroscience, University of Pittsburgh, Pittsburgh, PA, USA
15. *The role of interferon-alpha in the mesolimbic DA system*. Institut François Magendie; 1999 October 18; Bordeaux, France
16. *Recombinant human IFN-alpha-A modulates dopamine release in the nucleus accumbens*. The Fourth Maltese Medical School Conference. 1999 March 10; Malta.
17. *Naltrexone Attenuates amphetamine-induced sensitised locomotor behaviour*. ICAA – 42nd International Institute on the Prevention and Treatment of Dependencies; 1998 August 30 – September 4; Malta.

Media Interviews

1. Addressing the Abortion Study:

- Restoring the Faith Media – (09/24/2019) - <https://youtu.be/zMf1Kq7dDRg>
- EWTN –
 - News Nightly (<https://youtu.be/NsX7EEllcuI>) (and Behind the Scenes (https://m.facebook.com/watch/?v=2267698356648737&_rdr# =))
 - To listen to and download a podcast of the interview, click here. (07/09/19) - <http://listen.ewtn.com/ENN/ENN14385.mp3>
- Relevant Radio –
 - The Drew Mariani Show (starts at ~36:15) - <https://relevantradio.com/2019/06/iran-says-they-will-break-the-2015-agreement/>
 - To listen and download the podcast, click here. (06/17/19) – <https://relevantradio-od.streamguys1.com/mariani/DM20190617a.mp3>

2. Addressing COVID-19

- LifeSite News - The John-Henry Westen Show (01/19/22) – A Catholic perspective on COVID 'mass formation psychosis' with Franciscan University professor – <https://www.lifesitenews.com/episodes/a-catholic-perspective-on-covid-mass-formation-psychosis-with-franciscan-university-professor/>
- Truth for Health Press Conference – Vaccines & Children: ‘What are the Risks?’ – Press conference held by Truth for Health on various topics associated with the COVID-19

vaccine with various medical and scientific professionals sharing thoughts. Dr. Stephen Sammut begins presenting around 1:13:06. (11/17/21) – <https://rumble.com/vpdxvk-vaccines-and-children-what-are-the-risks-press-conference.html>

- LifeSite News Article on Dr. Stephen Sammut’s contribution to the Truth for Health Press Conference (see above). (11/18/21) – <https://www.lifesitenews.com/news/stop-the-shot-catholic-professor-blasts-covid-jab-push-as-crime-against-humanity/>
- Relevant Radio Discussion – Discussion with Dr. Stephen Sammut and Dr. Robert Tiballi. Begins around 16:05. (10/14/21) – <http://relevantradio-od.streamguys1.com/mariani/DM20211014a.mp3>

3. Addressing pornography:

- Relevant Radio – The Drew Mariani Show (starts at ~7:49) (10/13/22) (<https://omny.fm/shows/the-drew-mariani-show/new-insights-on-porn-addiction-st-joseph-and-being>)
- Forbes Article – “New Psychological Research Offers A Possible Way Out Of Porn Addiction” (<https://www.forbes.com/sites/traversmark/2022/07/10/new-psychological-research-offers-a-possible-way-out-of-porn-addiction/?sh=436e91e269d8>) (07/10/22). Full interview available at: <https://therapytips.org/interviews/pornography-disorsts-our-perception-of-reality-say-psychologists>.

4. Addressing ectopic pregnancy:

- AbolishAbortionFlorida: <https://rumble.com/v1pht1r-could-this-lead-to-saving-ectopic-babies.html> (10/20/22)
- America Magazine News Article (previously published in Crux) – “Treating ectopic pregnancies is not abortion. But researchers are still looking for a way to save both mother and child.” (<https://www.americamagazine.org/politics-society/2022/07/22/embryo-transfer-research-ectopic-pregnancies-243400>) (07/22/22)
-

5. Addressing various topics:

- Truth for Health Foundation: Faith Over Fear Series – A two part presentation by Dr. Stephen Sammut on various aspects associated with crowd behavior, including at the individual level.
 - [The Neurobiopsychosocial Basis of Crowd Behavior: Part I – The Individual](#) (7/14/22)
 - [The Neurobiopsychosocial Basis of Behavior: Part II – The Crowd](#) (7/21/22)
- Famela and Friends: Interviewed by Famela Ramos regarding abortion study, pornography and mental health findings, COVID-19 and academia. Begins at 13:40 (01/23/22): <https://omny.fm/shows/famela-and-friends/playlists/podcast/embed?style=cover>

Research Projects

Below are the past and current/ongoing projects that I am involved in with students. Past research projects are currently being prepared for publication. The goals of these research projects are: to expose students to true research that is pertinent to the university and is publishable; to facilitate their growth and prepare them for graduate school.

• Individual integrity and conformity	Fall 2022
• Sleep, interpersonal functioning, Spirituality & Impulsivity	Fall 2021
• Mental Health study follow-up	Spring 2021
• COVID-19 and Mental Health in College Students – published in <i>Frontiers in Psychiatry – Public Mental Health (2022)</i>	Fall 2020
• Pornography and Mental Health among College Students – published in <i>Frontiers in Psychology – Health Psychology (2021)</i> .	Fall 2019
• Mental Health Knowledge among Faculty and Staff	Fall 2018
• Spirituality and Mental Health (Manuscript in Preparation)	Spring 2018
• Destructive behavior, Depression and Isolation	Fall 2017
• Scrupulosity, Attachment to God, Religiousness, Depression, Anxiety & Stress. (<i>conducted in collaboration with Dr. Matthew Breuninger</i>) – published in <i>Mental Health, Religion & Culture (2019)</i> .	Spring 2017
• Gambling, Attitude to Gambling (<i>conducted in collaboration with United Prevention Partnership; presented as a report</i>)	Spring 2017
• Destructive Behavior and spirituality	Fall 2016
• Counseling Center efficacy	Fall 2016
• Destructive behavior	Spring 2016
• Mental Health	Spring 2016
• Burnout across different Majors	Fall 2015
• Rational Beliefs, Disposition to Forgive & Self-Acceptance (<i>conducted in collaboration with Dr. Milo Milburn, Graduate Counseling Program</i>) – published in <i>Journal of Rational-Emotive & Cognitive-Behavior Therapy (2017)</i> .	Fall 2015
• CORE Drug & Alcohol Survey with a focus on Austria Gaming Campus	Fall 2015
• Mental Health Awareness on Campus	Spring 2015
• Pornography prevalence & use	Spring 2015
• Depression, anxiety & Stress, spirituality, Social Media and Social support	Fall 2014
• ActivPrayer – an investigation of the role of altruistic, prosocial activity in psychological well-being (Experimental I Class) - (<i>currently being analyzed & prepared for Publication</i>)	Spring 2014 – Spring 2016
• CORE Drug & Alcohol Survey (Experimental I Class)	Spring 2014
• Modesty & Self-esteem (Experimental I Class)	Fall 2013
• Depression, Anxiety and Stress & their potential causes in FUS students (Experimental I Class) – published in <i>Journal of Affective Disorders (2014)</i> .	Fall 2013

• The Effect of Atonal Versus Tonal Music Upon One's Emotional State	Summer 2013
• Drug-induced Pregnancy Termination: An Animal Model (in collaboration with <i>Univ. San Sebastián, Concepción, Chile</i>). – published in <i>Frontiers in Neuroscience (2019)</i> .	Summer 2013
• Reward and motivation in a rat model	Spring 2013 - ongoing
• Religiosity and Personal Behavior (Experimental I Class)	Spring 2013
• Use of social media and social ability (Experimental I Class)	Spring 2013
• Influence of Impulsivity and Living Environment on Destructive Behaviors Among College Students. (Experimental I Class)	Fall 2012
• Childhood Family Security and Anxiety and Dependence in Adult Relationship Attachment (Experimental I Class)	Fall 2012
• CORE Drug and Alcohol Survey	Spring 2012
